

APPLICATION FOR PERMIT  
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office.....NOV 20 1992.....

Returned to applicant for correction.....

Corrected application filed.....

Map filed.....May 16, 1980 under 40509.....

The applicant.....Incline Village General Improvement District  
c/o Director of Engineering  
893 Southwood Boulevard....., of.....Incline Village.....  
Street and No. or P.O. Box No. City or Town  
Nevada 89451....., hereby make application for permission to appropriate the public  
State and Zip Code No.

waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a  
copartnership or association, give names of members.) A municipal organization authorized by Chapter  
318, NRS. Organized 6/6/61, Washoe County, Nevada

1. The source of the proposed appropriation is Lake Tahoe  
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is 12.25 c.f.s. up to 350 acre-feet annually second-feet  
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....

3. The water to be used for Recreation (snowpack augmentation)  
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated.....

(b) Stockwater, state number and kinds of animals to be watered.....

(c) Other use (describe fully under No. 12. "Remarks").....

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point Lot 1 (SW1/4 SW1/4) extended South,  
Describe as being within a 40-acre subdivision of public

Section 16, T.16 N., R.18 E., MDB&M, or at a point from which the W1/4 corner of  
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.

said Section 16 bears North 22°50'57" West, a distance of 2487.93 feet

6. Place of use within the S1/2 Section 11, S1/2 Section 12, Section 13, Section 14, T.16 N.,  
Describe by legal subdivision. If on unsurveyed land, it should be so stated.

R.18 E., MDB&M (Diamond Peak Ski Resort)

7. Use will begin about September 15 and end about April 15 of the next year.  
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and  
specifications of your diversion or storage works.) pumping facilities in Lake Tahoe, pipelines,  
State manner in which water is to be diverted, i.e. diversion structure, ditches and  
booster pumps and reservoirs serving existing and proposed snowmaking facilities  
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works in excess of one million dollars
10. Estimated time required to construct works much of the works have been constructed - future facilities  
If well completed, describe works.  
will be completed within 2 years of all necessary regulatory approvals
11. Estimated time required to complete the application of water to beneficial use Within 10 years after construction (may vary with climatic conditions)
12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use:

Please use map on file at the Division of Water Resources under Application 40509 to support the proposed point of diversion and place of use. See attached for additional remarks.

OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed cubic feet per second

Work must be prosecuted with reasonable diligence and be completed on or before

Proof of completion of work shall be filed before

Application of water to beneficial use shall be filed on or before

Proof of the application of water to beneficial use shall be filed on or before

Map in support of proof of beneficial use shall be filed on or before

Completion of work filed  
Proof of beneficial use filed  
Cultural map filed  
Certificate No. Issued

IN TESTIMONY WHEREOF, I, State Engineer of Nevada, have hereunto set my hand and the seal of my office, this day of A.D.

State Engineer

Attachment for Application For Permit To Appropriate The Public Waters  
Of The State Of Nevada  
Item 12 - Remarks Continued

This application is for snowpack augmentation at the Diamond Peak Ski Resort. The water is applied for under the Nevada allocation in the pending Truckee River Operating Agreement under the Truckee River Settlement, P.L. 101-618, Section 204 (b) (2) (A) (i). Water is to be used within the Lake Tahoe Drainage Basin. The amount of water used each year will vary depending on the seasonal needs.

This application is being filed concurrently with a similar application by Heavenly Valley. Incline Village General Improvement District (IVGID) and Heavenly Valley have agreed on an average annual allocation of 150 acre-feet to Heavenly Valley and 200 acre-feet to IVGID. They have also agreed that relative annual use by the two parties may vary depending on local climatic conditions and other factors. Thus both applicants are filing for an amount up to the total 350 acre-feet annually allocated to Nevada and specified in the working document of the Truckee River Operating Agreement. Subject to approval by the Nevada State Engineer, this will allow each applicant the ability to vary the amount of water used on a yearly basis, with the understanding that the total amount of water diverted between both applicants is not to exceed 350 acre-feet annually.
